Certifications: *Build a Website with HTML, CSS, and GitHub Pages(Codecademy), Data with JPA(Codecademy), Spring Context(Codecademy), Responding to Requests(Codecademy), Exploratory Data Analysis in Python(Codecademy), Introduction to Machine Learning(Codecademy)*

PROJECTS

COLMAR ACADEMY WEBSITE

June 2024

- Developed a responsive, visually appealing website using HTML and CSS.
- Created a clean, modern layout with media integration across multiple sections.
- Ensured seamless functionality across all devices.

STOCK DATA ANALYSIS WITH PYTHON

August 2024

- Analyzed historical NASDAQ stock data (1962-2024) using Python libraries: pandas, numpy, matplotlib, and seaborn.
- Developed functions for calculating returns, plotting prices and volumes, and generating correlation heatmaps.
- Implemented financial metrics, including moving averages, annualized return, volatility, and Sharpe Ratio, to guide investment suggestions.

EXPERIENCE

MEADOWLANDS GOLF CLUB, Winston Salem, NC

May 2023 - August 2023

Maintenance

- Led daily landscaping and course maintenance, ensuring pristine conditions before customer arrivals, resulting in high customer satisfaction.
- Optimized time management by completing complex tasks within early morning shifts, demonstrating adaptability and resilience under pressure.

TEXAS ROADHOUSE, High Point, NC

June 2021 - March 2022

Foodrunner

- Advanced from Busboy to Foodrunner in one month by delivering exceptional service and efficiency, enhancing overall dining experiences.
- Streamlined order delivery processes by coordinating closely with waitstaff, significantly improving service speed and accuracy in a fast-paced environment.
